

NURSERY & BEDDING PLANTS

Nurseries are places where young plants and trees are grown for sale at garden centers. Growing nursery and bedding plants is called horticulture. Have you ever gone to your local nursery or garden center and bought plants to include in your garden? These plants give you a jump-start on your garden and are easier than planting seeds. Some plants that are grown in Louisiana nurseries are azaleas, crape myrtles, begonias, petunias, poinsettias, gingers, blueberries, peaches and many others.

Louisiana Value:
\$94 million

Color the nursery and bedding plants.
